

Name: _____ Date: _____

Short Answer Questions

1. Do some research and write a short report about Aztec ceremonies that included popcorn.
2. Do some research and create a PowerPoint presentation of at least five ways that popcorn has been cooked (popped) over the centuries.
3. Just the aroma of popping popcorn emanating from the microwave is enough to make the mouth water in anticipation of this delightful snack. Do some research and explain why this can be called a Pavlovian response.
4. Standardized testing of students is designed to produce a bell-shaped curve. Explain what this means.
5. Explain why blood pressure readings of a group of adults are suitable for expression as a standard normal distribution.
6. Explain why eye color is not suitable for expression as a standard normal distribution.
